

This Week at the District

Business Infrastructure Incubation

Orange County Business Council President **Lucy Dunn** served as co-host to a discussion regarding business infrastructure incubation. System Office Vice Chancellor of Workforce & Economic Development **Van Ton-Quinlivan** and Spectrum Knowledge executive **Dr. Vu Pham** were with us to discuss how Orange County can create the infrastructure for business incubation focused on professions of the future. The intent of the regional discussion was to create a concept to build more entrepreneurial and emerging business elements for our service area that supports the needs of business and provides career pathways for students. It was a lively discussion and I am excited to get started on this new approach to workforce development.

Coastline Academic Senate Meeting

I would like to thank **Dr. Pedro Gutierrez** and the Coastline Academic Senate for including me in their meeting this week. I felt that it was a great discussion about the requirements and deadlines for accreditation. I am appreciative of the team and their willingness to come together to learn about the requirements and the urgency required to meet the deadline. Further, I was able to have an open discussion regarding Coastline and its unique role within the District. Being non-traditional, Coastline is home to innovation and a great asset to our District. We are so fortunate to have such a powerful mix of tradition and innovation within our own college family. I look forward to continuing these types of discussions at Coastline and throughout the District.

Measure C/M Citizens' Oversight Committee

This week marked the final meeting of the Measure C Citizens' Oversight Committee (COC) and the beginning of Measure M. I would like to thank **Trustee Lorraine Prinsky** and **Trustee Jerry Patterson** for attending the meeting and providing congratulations and thanks to our COC and the Measure C Programming Team. Measure C was the beginning of new campus structures and infrastructure. Measure M will continue with a refined mission of rebuilding and rehabbing for the next generation of teaching and learning. Each member of the Board of Trustees, the COC and the Programming Team received a small award noting the successful completion of Measure C and the over \$400-million invested in our campuses. Thank you all for your contribution to the future!

Sincerely,

Board Meeting Reminders

October 2 – Regular Meeting

October 16 – Study Session

November 6 – Regular Meeting

Chancellor's Schedule

Week of September 23

Monday – Tuesday
Clinton Global Initiative
Panel Participant, NYC

Wednesday – Friday
In the Office
