

This Week at the District

Chapman University Economic Forecast Update

This nationally recognized Economic Forecast Conference utilizes the faculty and student developed Chapman Econometric Model to provide national and local business and organizations with the information they need to make more effective planning and investment decisions. As always, it was interesting to hear from policy analysts regarding the state of the county and what is likely to come in the near future.

Presidents' Council - Priority Registration Study Session

The Presidents Council held a lively discussion regarding the priority registration. Much of the priorities are mandated and it is a careful balancing act to ensure that all of our students are scheduled for registration accordingly. We will continue the discussion and provide a full report once a plan has been fully developed.

Alternate Work Schedule

For five (5) weeks starting July 9, all three colleges and the District will be offering a 4/10 work schedule and will be closing to the public on those Fridays. Please note that the 4/10 schedule is OPTIONAL and needs to be arranged with the department manager in order to provide sufficient coverage for each department. Please note that we are offering this option in order to provide our staff with the flexibility to take advantage of a few "extra" days in the summer to some extra time. Please note that signs are being made to indicate that our offices (and campus offices) will be closed on these Fridays to public. Some departments and individuals will elect to work a regular five-day schedule, however, we will not be open to the public. Please also know that there are instructional programs and services that will not be able to take advantage of a flexible schedule. I can assure you that each manager will be ensuring appropriate coverage in their respective departments.

Farewell, Donna Waldfogel

I hope you will join me in wishing Donna Waldfogel a fond farewell as she embarks upon her retirement. Donna's longtime service to the District will be missed and I wish her well in her future endeavors.

Remembering Fred Hoover

Fred Hoover, head coach at Golden West College, passed away on June 22. The GWC diamond is named Hoover Field in his honor and we will always remember the great things he has done for Coast. We would like to extend our deepest condolences to his family.

Sincerely,

LIGHTS, CAMERA, ACTION!

The new video production studio at Golden West College is ready for action, in fact, a project was recently completed by Digital Media students – *GEEK GIRLS*, a pilot for an online sitcom. The project took five days and was a joint effort by Digital Media students with instructor Renah Wolzinger, and the New Media & College Promotions staff. Christopher Davila, a GWC student, produced and directed the show.

Located in the Online Instruction wing of the new LRC building, this 40 ft. by 40 ft. state-of-the-art studio has three robotic HD cameras which are operated in the control room, eliminating the need for camera operators. Adjacent to the studio are two editing bays fully equipped with the latest editing software and hardware.

The New Media department provides video production services for instructors who wish to produce videos for online courses. We are planning to offer new services to include real-time interactive videos, webinars, and promotional videos.

The studio is also used to generate additional income for the college. Golden West has successfully produced training videos for POST (The Commission on Peace Officer Standards & Training) for many years. We will be expanding the business to other organizations in the near future.

GOLDEN WEST COLLEAGUE

**Meet Manny Padilla,
GWC's 2011-12
Employee of the Year**

Ever since he was a kid, he wanted to be an officer of the law, and now he is living his dream. Campus Public Safety Officer Manny Padilla has been a face on campus since 2000, received a GWC AA in Criminal Justice in 2002, and now patrols our parking lots and interior, taking care of everything from battery assists to incident reports, parking enforcement to escorts. He actually started as a Student Assistant in the Counseling Center, but soon moved to Public Safety and 8 years ago landed the full time position in Public Safety.

Manny calls himself a happy man. He loves being outdoors, helping people and having a job that includes a wide diversity of activities. He smiles when he thinks of his job – how wonderful it is to drive around this gorgeous campus and have the opportunity to get to know so many people and help so many. The hours, the holidays, the benefits – he just keep counting his blessings!

The Padilla family moved to California from Mexico when Manny was five, and he met his wife the next year, when he was 6 and she was 3, but they put off marriage till much later. They now have an 18 month old son who rides in a bob stroller when dad and mom go out for a run. Asked about hobbies, the answers came back with a familiar theme – the outdoors: mountain biking, running, paintball (a family affair with 25 relatives and friends!), and snowboarding. This is one officer that you don't want to mess with because when he's not enjoying those pursuits, he might be working out, exercising, practicing martial arts or taking a boxing class. In High School, he earned the Coaches' Award for soccer and still plays a mean game.

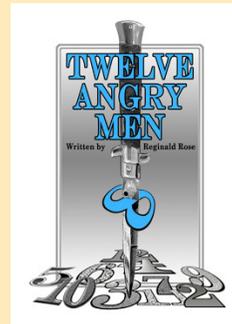

Rumor has it he owned a '65 Mustang – is he a classic car fan?

A staff member commented that Manny “interacts with everyone on campus on the same level and is such a consistently positive presence on campus.” We appreciate the strong yet friendly assistance he provides to any who need his help, and are very excited to see him receive this recognition of a job well done.

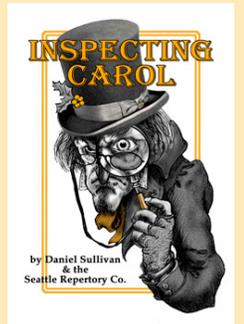

Congratulations to you, Manny, and thanks for your part in making our campus the wonderful place it is to work!

Legendary GWC Baseball Coach Fred Hoover Dies at age 81

Fred Hoover, a longtime coach, passed away Friday June 22, 2012. *Hoov*, as he was affectionately called, started the Golden West College Baseball team in 1967 and spent the next 20 years coaching the Rustlers before retiring in 1988. Under Hoov, the Rustlers won 20 or more games 12 times, and won or shared seven conference championships. He was inducted into the California Community College Baseball Hall of Fame in 1992.

Fred Hoover is survived by his wife, Barbara, two daughters Jojo and Lisa, his son Rick, and seven grandchildren. Our condolences go out to the Hoover family.
